1. INTRODUCTION

Mission for Elimination of Poverty in Municipal Areas (MEPMA) established in the year 2007 to enable the urban poor particularly the poorest of the poor to eliminate poverty and vulnerability in a sustainable manner and improve their quality of life in urban areas. MEPMA in Telangana is registered on 31.05.2014 to address Urban Poverty related issues in 74 Urban Local Bodies in Telangana State.

MEPMA is the State Level Nodal Agency for implementing following National level Programs

- Deendayal Antyodaya Yojana – National Urban Livelihoods Mission
- Housing for All

MEPMA as per the guidelines issued by Deenadayal Antyodaya Yojana – National Urban Livelihoods Mission under Ministry of Housing and Urban Poverty Alleviation, Government of India is implementing “Shelter for Urban Homeless” component by providing shelter with all essential services to the Urban Homeless in 74 Urban Local Bodies in Telangana State.

To assess the actual number of homeless, no. of shelters required for Homeless in each Urban Local Body, and for rehabilitation of homeless, it is proposed to conduct a GIS based survey of homeless in 74 Urban Local Bodies in Telangana State.

Definition of Homeless Persons

Persons who do not have a house, either self-owned or rented, but instead live and sleep on pavements, at parks, railway stations, bus stations and places of worship, outside shops and factories, at constructions sites, under bridges, in Hume pipes, on dividers, road junctions and all other similar places under the open sky or places unfit for human habitation. This also includes people who live in temporary structures without walls, under plastic sheets or thatched roofs on pavements, parks or other Common Places.

Guiding Principles/ guidelines

Deendayal Antyodaya Yojana - National Urban Livelihoods Mission (DAY-NULM) aims at providing permanent shelter equipped with all essential services to the urban homeless in a phased manner under the Scheme of Shelter for Urban Homeless (SUH).

The National Urban Housing & Habitat Policy (NUHHP), 2007 aims at Promoting sustainable development of habitat in the country with a view to ensure equitable supply of land, shelter and services at affordable prices to all sections of the society. However, the most vulnerable of these are the urban homeless.

The Urban homeless persons contribute to the economy of the cities and thus the Nation as cheap labour in the informal sector; yet they live with no shelter or social security protection. The urban homeless survive with many challenges like no access to elementary public services such as health, education, food, water and sanitation.

2. PROJECT AREA:

The present assignment covers 74 ULBs spread across 31 districts of Telangana State including GHMC and Secunderabad Cantonment Board area.

The Project Area is grouped into 3 Regions.

- Region - I corresponds to ULBs of Hyderabad Region except Greater Hyderabad Municipal Corporation & Secunderabad Cantonment Board area.
- Region - II corresponds to ULBs of Warangal Region, and
- Region - III corresponds to Greater Hyderabad Municipal Corporation area and Secunderabad Cantonment Board.

Details of Regions can be found at Annexure – I.

Each selected Agency / Firm / NGO will be allotted 01 or more regions for conducting GIS based survey of homeless persons based on their eligibility and capacity.

3. SCOPE OF WORK:

MEPMA as per the guidelines issued by Deenadayal Antyodaya Yojana – National Urban Livelihoods Mission under Ministry of Housing and Urban Poverty Alleviation, Government of India is implementing Shelter for Urban Homeless component by providing shelter with all essential services to the Urban Homeless in 74 Urban Local Bodies in Telangana State.

To assess the actual number of homeless, shelters required for Homeless in each Urban Local Body, and for rehabilitation of homeless, it is proposed to conduct a GIS based survey of homeless in 74 Urban Local Bodies in Telangana State.

In future, if Government of Telangana notifies any new Urban Local Bodies in Telangana State, the agency / firm is required to carry out the survey in such Urban Local Body in their respective allotted regions. The rate for survey in such ULB is to be indicated separately in Financial Proposal.

3.1 Objectives of the Survey:

Survey would ensure four objectives, to

- i. Provide planners a detailed mapping of concentration areas of homeless populations in each city / town;
- ii. Establish the demographic profile of homeless populations in city / town;
- iii. Identify official resources such as land and vacant buildings that can be deployed to provide the required infrastructure for shelters in appropriate location in each city/town; and
- iv. Establish the location and type of shelters needed in each city/town by gauging the specific needs of the beneficiaries

3.2 GIS based Survey of Homeless persons may be divided into three phases:

a. Planning phase

- Each Urban Local Body may be divided into smaller, more compact Zones / Ward clusters, in line within the administrative set-up of the ULB.
- Teams may be deployed depending on size and population of the Zones / ward clusters.
- Each team may comprise of around four persons for the field survey.
- These persons may include NGO representatives, homeless youth volunteers, students and youth volunteers (such as from the National Service Scheme-NSS, Town Level Federations and Nehru Yuva Kendra-NYK) etc preferably having experience in doing survey earlier.
- In addition, a team of two Data Entry Operators and Analysis Specialists should be attached to each team, totaling up to seven people per team.
- Additional student volunteers can be added to each team to assist and learn from the process.
- Necessary Mobile application software to be developed, duly approved by MEPMA.
- Standard questionnaire format will be developed for entire state and agency would follow same for collection of information

- Real time web based dashboard to be provided to MEPMA authorities to view real time progress of survey and geospatial information of the each application on the Map
- A Quality assessment team for correction of errors on data to be deployed and each filled form though online to be verified

A Plan for survey of homeless population in each Urban Local Body should be prepared in consultation with the Municipal Commissioner of the concerned ULB, which includes the following details:

1. Identification of areas with concentration of homeless based on earlier surveys or any other source of information
2. Division of ULB into zones/ ward clusters in which data would be collected
3. Ensure availability of required number of Tablets / I pads / Smart Phones (@ 2 tablets / I pads / Smart Phones per team) and other accessories before conducting the survey
4. List of interview questions to be prepared for guiding the focus group discussions as per the guidelines
5. Content and format of reports to be submitted to be finalized as per requirement time to time.
6. Timelines to be fixed within which survey would be completed
7. List of partners to be finalized who would be assisting in the qualitative as well as quantitative collection of data

Prior to the survey, the teams should be trained and oriented on:

1. Purpose of the survey;
2. The profiles and problems of the homeless;
3. Participatory research methods;
4. Data entry of homeless persons through Mobile application using tablets;
5. Expected outcomes;
6. Ethical responsibilities;

Orientation material can be provided a couple of days prior to starting the survey, as material to be ready before the training sessions. The training should include the surveyors, data entry operators, analysis team, plus volunteers, if any.

b. *Field Survey: Mapping and Need assessment*

The field survey will commence only after the trained survey teams are in place. The field survey should begin **from 8.00 PM to atleast 2.00 AM**, because homeless people can usually be identified and contacted at this time. In addition, to cover homeless persons who work during the night, surveys should also be planned for a couple of days during the daytime, i.e. 10.00 AM to 4.00 PM.

The steps to be followed during the survey

1. Identifying the areas with concentration of homeless population,
2. Profiling the homeless populations in these areas in terms of gender, age, education, occupation, marital status, number of children, history of illness etc. persons with disability should be categorized separately.
3. Identifying the aspirations of the homeless for a shelter and also the deterrents preventing the homeless from using the existing shelters, if any.
4. Broadly identifying the possible buildings and locations where new shelters can be built and duly display on the map by geo tagging them.

Need assessment of the homeless persons should be done using Focus Group Discussion (FGD) method so as to elicit the best possible responses from them.

In FGD, questions should be asked based on an indicative list / format focusing on the following core areas;

- i. What is roughly the total population of the homeless cluster including women and children?
- ii. What is the predominant age and gender profile of the homeless population in the cluster?
- iii. What are the predominant occupations undertaken by this homeless cluster?
- iv. Do they have any special needs and challenges, such as disability, leprosy, TB, high drug use etc?
- v. Have the majority of homeless residents been at this location for more than one year, or less?
- vi. Do they have access to any shelter? If so, the experience of using such shelters by the homeless

- vii. If the government sets up a shelter for them, would they welcome it; oppose it; or be indifferent? Ask for reasons.
- viii. If they were to have a shelter, what would they seek from it in terms of location; facilities; and management?
- ix. Are there any resources available in the vicinity where these shelters could be built? The resource could be in the form of land or building.

This information should be recorded and collated by each team. To ensure faster survey results, data entry should be done in parallel with the survey along with photograph and Geo tagging of each homeless person.

The following deliverables are expected out of this process at this stage:

1. Map should indicate the locations of all the scattered as well as clusters of homeless people.
2. Collated survey results
3. Determination of shelter locations, types, number of shelters required in an area, plus available resources in terms of land and building.
4. Finalized resource mapping questionnaire for the next stage of resource mapping.

c. ***Resource Mapping***

The next step is to conduct a resource mapping exercise. The resources that this phase of the survey seeks to identify in consultation with the Municipal Commissioner of concerned ULB are

- a) Existing shelters;
- b) Unutilized or underutilized government buildings that can be possibly redeployed as shelters after suitable refurbishing; and
- c) Vacant lands that are suitable potential sites for new shelter buildings.

At the end of this process, the following deliverable are expected:

1. Field resource mapping survey of all the identified potential buildings and shelter locations
2. Determination of the feasibility of the identified buildings and locations for building/ upgrading shelters, along with government agencies
3. Collating results and submitting to concerned urban bodies at the city level
4. Discussions on recommendations to be put forth in the report

d. ***Reporting and Sharing***

Once the results of locations are established, the next step is development and finalization of a comprehensive city plan for homeless shelters. This should include sites for homeless shelters and services, types of shelters, converging on homeless concentration areas and aspirations with available resources, buildings and land. This should be done in a participatory manner, with the involvement of Municipal Authorities, homeless communities and collectives, schools of social work and architecture, CBOs, NSS and college students etc.

At the end of this stage, the following deliverables are expected:

1. Analysis and inferences including homeless concentration areas, profiles, needs and aspirations of homeless populations in each concentration area

2. Preparation of Report with the following minimum arenas:
 - a. Location of shelters with geospatial information
 - b. Types of shelters (working single men; single women and their dependents; special needs shelters such as for drug users, those recovering from grave illnesses, the aged, disabled and infirm)
 - c. Capacity of each shelter
 - d. Facilities and Services to be provided at the shelters
 - e. Resource mapping of needs against existing resources
 - f. Submission of the data set for the project.
 - g. Analysis report on clustered homeless requirements and suggestions for establishment of Shelters based on the need in area/zone & Municipality
