1	Multiple Agencies	<ul style="list-style-type: none"> There has to be study to determine purpose of bank linkages, scale-up plans, etc. It seems that the onboarded agency will have to survey all the SHGs in a cluster allocated to them together and verify accuracy of information. We are assuming that it is not a sample basis and 100% coverage will be required. This been the case to complete this exercise will extend into many months. Kindly clarify 	<ul style="list-style-type: none"> The study has to be done for all the SHG groups in the allocated clusters with 100 % accuracy. MEPMA will support the selected agencies in the survey process by providing required data and instructions will be given to all the Resource persons (RPs) to organize meeting with multiple SHG groups at a common place, where the selected agency can get the required information by interacting with multiple groups at one common point. A common Survey questionnaire will be prepared in discussion with selected agencies for completing the survey and to bring uniformity in the data collection.
